## Policy Statement

SheffieldResources

February 2019

Sheffield Resources Limited and its subsidiaries ('Sheffield') embraces our responsibility to practice and promote behaviours which contribute to environmental sustainability and the improvement of relevant biodiversity.

### Policy Statement

Sheffield will:

- Aim to at least meet but aspire to exceed legislative requirements and community expectations through best practice environmental management;
- Promote efficient use, reuse and recycling of resources and the minimisation of waste and emissions;
- Minimise environmental impacts and ensure disturbed areas are rehabilitated in accordance with site specific plans, and exceed legislative requirements;
- Implement actions to mitigate and offset impacts to biodiversity;
- Manage water use to minimise impacts to the environment and surrounding users; and
- Implement strategies to mitigate and minimise climate change impacts.

### Responsibilities

The policy applies to all Employees (including employees, contractors and visitors as applicable) of Sheffield who are expected to comply with its content and contribute towards environmental sustainability.

The Sheffield Board and the Management team is responsible for devising and implementing strategies to achieve the company's environmental objectives. This includes:

- Regularly reviewing environmental performance objectives and targets and continually seeking opportunities for improvement; and
- Publicly reporting on environmental performance.

Bruce McFadzean  
Managing Director
